PROFESSIONAL SUMMARY

Third-year Computer Science student specializing in Artificial Intelligence at Benha National University, with a GPA of 3.24/4.00. Passionate about Artificial Intelligence, Machine Learning, and Data Analysis. Strong foundation in Python, C++, SQL, Object-Oriented Programming, Data Structures, Algorithms, and Problem Solving. Experienced in developing practical machine learning projects using Python, Pandas, Scikit-learn, and Streamlit, with continuous learning through projects, workshops, and professional training.

EDUCATION

Benha National University — Egypt

Bachelor of Computer Science — Artificial Intelligence Specialization

Third-Year Student

GPA: 3.24 / 4.00

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL

Data Science & Python Libraries: NumPy, Pandas, Matplotlib, Seaborn

Machine Learning: Scikit-learn, Regression, Classification, Data Preprocessing, Model Evaluation

Computer Science: Object-Oriented Programming, Data Structures, Algorithms, Problem Solving

Tools & Technologies: Streamlit, Jupyter Notebook, Visual Studio Code, Git, GitHub

PROJECTS

House Price Prediction | Machine Learning

- Built regression models for house price prediction, achieving **89.53% R²** using Gradient Boosting.
- Performed data preprocessing and model development using **Python, Pandas, and Scikit-learn**.
- Developed an interactive **Streamlit** application for house price predictions.

Student Burnout Prediction | Machine Learning

- Built classification models to predict student burnout levels using academic, lifestyle, and behavioral features.

- Performed data preprocessing, exploratory data analysis, and model evaluation using **Python, Pandas, and Scikit-learn**.
- Compared multiple classification algorithms and developed a **Streamlit** application for real-time predictions.

Video Downloader | Python

- Developed a Python application for downloading videos and playlists with quality selection.
 - Implemented audio-only download functionality using **yt-dlp**.
-

CERTIFICATIONS & TRAINING

- **Machine Learning Specialization — DeepLearning.AI & Stanford Online** (*In Progress*)
 - **GDG Machine Learning Workshop — Benha National University** (2026)
 - **Build Masr with AI — Google** (2026)
 - **NTI Big Data Training** (2026)
 - **Huawei HCIA-AI Training** (2026)
-
